Fill it Up! It Takes All of Us!*

**Goal:**
- To fill the bucket that is placed in the center of the game circle with the different types of balls including 3” coated foam balls, 7” coated foam balls, an a 8” playground ball

**Bullying Awareness/Bullying Prevention Concept or Goal:**
- It takes all types of abilities, talents, skills and materials to complete a task.

**Recommend Grade Level:** Grades 4-8

**Space or Activity Area:** 12’ circle in an area that you can bounce a ball. Create a circle and place the FlagHouse Keeper bucket in the center of the circle

**Equipment/Materials Needed:**
- 6 – 3” coated foam balls, #W18718—Bullying Awareness Dino Skin Ball, 3.5”
- 2 - 7” coated foam balls #W18716—Bullying Awareness Dino Skin 7” Medium Bounce Ball
- 1 – 8” playground ball, #W18715—Bullying Awareness Playground Ball - 8.5”
- #W12678—KEEPERS Pail and Lid Set or a #W7865—Multi - Buckets Set

**Description of Activity/Game:**
- Players stand outside the circle area
- These players hold the balls that are used in the game
- One player is the sweeper and that person is allowed in the circle to return balls to the outside players
- On the start signal the players begin to bounce the balls into the bucket in the center
- All missed balls are returned to the players outside by the sweeper
- The object is to get all the balls into the bucket

**Skills Component:**
- Bouncing balls
- Targeting

**Rules:**
- All players must stay outside the circle (except the sweeper)
- All balls must stay in the bucket for task to be completed
- Balls must be bounced into the bucket

**Assessment:**
- How did the group work to complete the task?
- Did the group follow the rules of the game?
- How long did it take to complete the task?
Debriefing Ideas:
- Talk about each person’s part in the activity
- Discuss whether all rules were followed
- Discuss the role of each player
- Brainstorm how to complete the task in a different new way

Extensions:
- No bounce of the balls
- Larger circle
- Smaller bucket
- Stack the bucket on another bucket
